Volunteers needed for Space Station water recovery testing

Civil service volunteers are needed to support testing of the International Space Station Water Recovery System. Participants will generate waste water by exercising and performing hygiene activities. A physical exam and treadmill test are required. Testing will begin in June and end in December. Volunteers must obtain approval from supervisors and be full-time Marshall civil service employees. To participate, call Paul Wieland at 544-7215 by April 9.

Gravity Probe-B briefing with Marshall Deputy Rex Geveden on NASA TV, noon CST Friday

**Emergency Warning Test
3 p.m. Thursday.
Audio only; do not evacuate**

'Take Our Children to Work Day' T-shirt orders due April 9

"Take Our Children to Work Day" at the Marshall Center will be April 22. The deadline for ordering a T-shirt is April 9. Registration deadline for children to participate in the day's activities is April 16. Children in grades 3-12 are eligible to participate. See "Inside Marshall" for T-shirt order and registration information.

'Looflirpa' fossils found on Neptune; scientists 'thrilled'

A set of fossilized bones found on Neptune has advanced a theory that mammals once thrived there. Scientists named the fossils "Looflirpa" because of similarities to Earth-like creatures with a sense of humor.

MARS Softball organizational meeting Thursday at noon, Bldg. 4203, Room 1201. See 'Inside Marshall'
